## Experience

### Front-End Web Developer Intern | Taubyte

Sep 2021 - Present | Remote

- > Develop Taubyte website using HTML, CSS, Sass, JavaScript and Vue.js.
- > Use Jira and Bitbucket to efficiently collaborate with other developers and track bug.
- > Debug errors, troubleshoot issues and perform website optimizations using Chrome Inspector and Vue.js devtools.

## Projects

### My Portfolio [🔗](#)

- > Built responsive UI using HTML, CSS, JavaScript, Styled-Components, React.js and React Bootstrap.
- > Debugged and troubleshooted layout issues across a variety of browsers including IE, Firefox, Safari and Chrome.
- > Allowed to send email directly from React component by using EmailJS.

### My Blog [🔗](#)

- > Built with Next.js for incremental static generation to speed up page loading and optimize the caching of pages.
- > Set up content management system using Sanity CMS to manage structured data.
- > Implemented Tailwind CSS to build a responsive UI.
- > Reduced bugs and wrote robust code using TypeScript.

### Realtime Chat Application [🔗](#)

- > Built the back-end API with Node.js and front-end with React.js.
- > Enabled real-time communication between client and back end by using Socket.IO.
- > Configured and deployed the server code to Heroku to construct the back-end API.

### Pho Chopstix [🔗](#)

- > Built website for a small restaurant using HTML, CSS, JavaScript and React.js.
- > Discussed site and app requirements with clients to produce actionable development plans and budgets.
- > Implemented Google-based SEO to increase reach of targeted audience.
